HH10RV

HYCON HH10RV is an exceptionally handy lightweight pick hammer designed for horizontal breaking in walls, brick wall and reinforced concrete. The low weight and compact design makes it very suitable for narrow working places. The HH10RV is a very popular breaker among contractors, telecom, supply companies (power-water-gas-sewage), and is a true "hit" for rental.

HH10RV is the strongest 10 kg breaker on the market, and no pneumatic nor electric breaker has anything like the same performance. The standard tool size is hex 19x50 mm. The breaker can be connected to the HPP-series (see Powerpacks) and other hydraulic power sources.

Technical Data

| | |
|---|-------|
| Weight, kg | 9.9 |
| Oil flow, l.p.m. | 20 |
| Working pressure, bar | 100 |
| Max. pressure, bar | 160 |
| Blow frequency, 1/min | 2100 |
| Noise level 1 m L _{PA} dB | 93 |
| Noise level L _{WA} dB | 105 |
| Vibration level (3 axis) m/s ² | 9.6 |
| Tool size, mm hex | 19x50 |
