HH20RV

HYCON HH20RV is a compact all-round 24 kg breaker. Despite low weight it handles even the toughest jobs. It is designed for breaking concrete, asphalt, frozen ground, brick wall etc.

Because of the very efficient HYCON PROLINE vibration-reduced handle, it has a vibration level of only 4.8 m/s², which is among the lowest vibration levels in the market, ensuring maximum operator protection.

HH20RV is preferred by municipalities, contractors, utilities etc. and is perfect for rental. The breaker can be connected to the HYCON powerpacks and other hydraulic power sources.

Technical Data

Weight, kg.	23.9
Oil flow, l.p.m.	20
Working pressure, bar	110
Max. pressure, bar	160
Blow frequency, 1/min.	1560
Noise level 1 m L _P A dB	94
Noise level L _W A dB	106
Vibration level (3 axis) m/s ²	4.8
Tool size, mm hex	32x160
